### ROAD WORK.

Four Miles Largely Completed in Direction of Creston and M.-to-B. Work to Commence Soon.

The county road commissioners have largely completed four miles of the grade work on the road in the direction of Creston. There remains considerable work to be done on the three bridges, but aside from the work of crowning, which will probably take about a week with the grader and traction engine, the actual work of building the road bed is completed. The needed work on the bridges will be done as soon as possible and the road will be crowned it is hoped within three weeks and a completed stretch of four miles long will be ready for traveling and the judgement of the public.

Work is to commence on the road via Greens Ford bridge at once. Work will begin near the residence of James Smith pending the securing the right of way on into town directly on Main street. All or nearly all the persons affected have signed a paper agreeing to give the right of way free so that no trouble is anticipated on that part of the work.

Work is to begin within a few days on the eastern end of the Memphis-to-Bristol highway, which means to give us an outlet to the east that will accommodate automobiles. Such an outlet is generally admitted to be the most helpful thing that can be done as it means a very early opening of the Memphis-to-Bristol highway all the way through this county. That will mean much travel through this county that does not now come this way because of the poor condition of the Memphis-to-Bristol a portion of the way in this county.

The Commission has purchased a drilling machine that renders the opening of ditches through rock a very small matter as compared with the usual way such work is done, and incidentally increases the speed of such work at a great saving to the county. All in all the commission are getting their equipment and working force in good shape and much more rapid progress may reasonably be expected from now on.

### MEXICAN TROUBLE GROWS

President Wilson Calls on States for National Guard and Response Is Prompt.

Owing to threatening attitude of the commanders of Mexican forces on the border, coupled with the demand of President Carranza that American troops be removed from Mexico, war threatens now more than at any previous time.

President Wilson has directed the war department to call for the state guard to muster at the training headquarters in the several states to be mustered into the United States service for service in Mexico in the event fighting becomes an actual fact. The number of men to be mustered into the United States service will be not less

than 100,000 men from the 45 states. Our troops will not be withdrawn from Mexico and the feeling is general that war will likely result. Conditions have been growing rapidly worse on the border for some time and now seem to have about reached the snapping point. A clash may come any time that will precipitate war.

### FIGHTING GOV. RYE.

At a meeting of the state democratic committee in Nashville Monday L. D. Hill of Sparta was chosen chairman of the state committee over Thad A. Cox, the choice of Gov. Rye. The vote stood 12 to 6 in favor of Mr. Hill. The action is construed as a hard slap at Gov. Rye as the courtesy of choosing the chairman of the state committee has long been accorded to the gubernatorial nominee of the party.

Taylor's Chapel Has a Great Outpouring and a Good Time.

Sunday was a gala day at Taylor's Chapel, M. E. Church, South. The Sunday school celebrated Children's day, the entire affair was in the hands of the young folks of the church and they certainly made a great success of it.

Dinner was served on the ground and was enjoyed by quite a large crowd of folks from the neighborhood and surrounding country.
